**\*\* CONDITIONS \*\*****STAFF RECOMMENDATION: APPROVAL, subject to:****Planning and Development**

1. A wet-sealed survey site plan shall be submitted to the Planning and Development Department demonstrating compliance with Title 19.14.100 with regard to the separation distance from the proposed off-premise sign to the nearest existing off-premise sign.
2. Conformance to all minimum requirements under LVMC Title 19.04.010 for the Off-Premise Sign use.
3. This approval shall be void two years from the date of final approval, unless a building permit has been issued for the principal building on the site. An Extension of Time may be filed for consideration by the City of Las Vegas.
4. This Special Use Permit shall be reviewed in two (2) years, at which time the City Council may require removal of the Off-Premise Sign. The applicant shall be responsible for notification costs of the review. Failure to pay the City for these costs may result in a requirement that the Off-Premise Sign be removed.
5. The Off-Premise Sign and its supporting structure shall be properly maintained and kept free of graffiti at all times. Failure to perform the required maintenance may result in fines and/or removal of the Off-Premise Sign.
6. The property owner shall keep the property properly maintained and graffiti-free at all times. Failure to perform required maintenance may result in fines and/or removal of the Off-Premise Sign.
7. If the existing off-premise sign is voluntarily demolished, this Special Use Permit shall be expunged and a new off-premise sign shall not be permitted in the same location unless a Special Use Permit is approved for the new structure by the City Council.
8. The Off-Premise Sign supporting structure shall be redesigned to include finish materials that complement the existing on-site building. The entire face-area of both sides of the Off-Premise Sign shall be signage area or its border framework; none of the supporting structure shall be visible aside from the support pole.

**December 6, 2007 - Planning Commission Meeting**

9. Bird deterrent devices shall be installed on the sign.
10. All City Code requirements and design standards of all City departments must be satisfied, except as modified herein.

**Public Works**

11. The proposed sign, including ground mounted base, shall not be located within the existing public right-of-way, within the additional 10 feet of right-of-way needed adjacent to this site in accordance with the City's adopted Master Plan of Streets and Highways that designates Western Avenue as an 80-foot Secondary Collector (MSH-13509) or interfere with Sight Visibility Restriction Zones. In addition, the proposed ground mounted base shall not be located within existing or proposed public sewer or drainage easements.

**\*\* STAFF REPORT \*\***

**PROJECT DESCRIPTION**

This is a request for a Special Use Permit for a proposed 40-foot high, 14-foot by 48-foot off-premise sign at 1550 West Oakey Boulevard. This sign will be oriented toward Oakey Boulevard and Western Avenue. The proposed sign meets Title 19 requirements for this use; therefore, staff recommends approval.

Because the proposed location is very close to the 300-foot distance separation required between off-premise signs, a stamped survey with an engineer or surveyor's signature is required as a condition of approval.

\*The point on the ground from the center of the sign structure to the intersection is greater than 50 feet; the pole support is approximately 50 feet from the intersection.

## ANALYSIS

The proposed off-premise sign is proposed to be located in a paved area north of an existing propane filling area at the southwest corner of the site. The pole supporting the sign will be set back 50 feet from the intersection of Oakey Boulevard and Western Avenue; the center of the sign structure will therefore be more than the 50-foot minimum setback required by Title 19.14.100. The edge of the sign will be at least 10 feet from any right-of-way. Although the sign is located approximately 330 feet from the I-15 right-of-way, it is not oriented toward the freeway. It will be a partial flag design that will hang over the paved area.

Depending on the exact placement and configuration of the off-premise sign, as many as three parking spaces could be taken in order to allow room for the sign. (Some may not be taken at all; the site plan states that no parking spaces will be taken.) These are not required spaces. The site is parking impaired, requiring 11 spaces at the time of the most recent Site Development Plan Review, while the current code requires 14 spaces. However, the site provides 17 striped spaces, allowing for removal of at least three spaces if necessary.

**SUP-25131 - Staff Report Page Seven**  
**December 6, 2007 - Planning Commission Meeting**

The sign as proposed meets the off-premise sign standards contained in Title 19.14, including those for distance separation, location and height. However, the proposed sign is very close to encroaching within the required 300-foot separation distance from an existing billboard to the northwest of the site. To ensure that the standards are satisfied, a condition of approval is recommended requiring a stamped, signed survey demonstrating compliance prior to the issuance of a building permit for the off-premise sign.

## **FINDINGS**

The following findings must be made for a Special Use Permit:

1. **“The proposed land use can be conducted in a manner that is harmonious and compatible with existing surrounding land uses, and with future surrounding land uses as projected by the General Plan.”**

The proposed Off-Premise Sign use is harmonious and compatible with the surrounding industrial and commercial land uses and is separated from existing off-premise signage by the required distances.

2. **“The subject site is physically suitable for the type and intensity of land use proposed.”**

The subject site is suitable for the intensity of an off-premise sign use.

3. **“Street or highway facilities providing access to the property are or will be adequate in size to meet the requirements of the proposed use.”**

Western Avenue (a 60-foot right-of-way classified as a Secondary Collector) and Oakey Boulevard/Wyoming Avenue (an 80-foot Secondary Collector street) provide access to the site; however, the off-premise sign use does not require vehicular access.

4. **“Approval of the Special Use Permit at the site in question will not be inconsistent with or compromise the public health, safety, and welfare or the overall objectives of the General Plan.”**

Approval of this Special Use Permit will not compromise the public health, safety and welfare, as its permit is subject to ongoing City inspections and enforcement.

5. **The use meets all of the applicable conditions per Title 19.04.**

Title 19.04 cross references Title 19.14.100, which contains the standards applicable to off-premise signs. All standards in this section are satisfied by the proposal. Regular maintenance of the sign is required as a condition of approval.
